## Executive Summary

This report provides a comprehensive analysis of the global terrorism landscape in 2024. It draws on extensive research and analysis of open source intelligence, government reports, and expert interviews. The report identifies key trends in terrorism, emerging threats, and potential future developments. It also provides recommendations for governments, law enforcement agencies, and other stakeholders on how to counter and mitigate the threat of terrorism.

## Key Findings

- The number of terrorist attacks worldwide increased by 10% in 2024.
- The majority of terrorist attacks in 2024 were carried out by non-state actors.

- The most common type of terrorist attack in 2024 was the suicide bombing.
- The most targeted countries by terrorists in 2024 were Iraq, Afghanistan, and Syria.
- The use of social media by terrorists is increasing.
- Terrorists are increasingly using new technologies, such as drones and 3D printing, to carry out attacks.

## **Emerging Threats**

In addition to the key findings, the report also identifies a number of emerging threats that could pose a significant challenge to counterterrorism efforts in the future. These threats include:

- The rise of lone wolf terrorism
- The potential for terrorist attacks using weapons of mass destruction
- The growing threat of cyberterrorism
- The potential for terrorist attacks against critical infrastructure

## **Potential Future Developments**

The report also provides insights into potential future developments in the global terrorism landscape. These developments include:

- The continued growth of non-state terrorism
- The increasing use of technology by terrorists

- The potential for terrorist attacks against major sporting events or other high-profile targets
- The growing threat of terrorism in new regions, such as Southeast Asia and Africa

## Recommendations

The report concludes with a number of recommendations for governments, law enforcement agencies, and other stakeholders on how to counter and mitigate the threat of terrorism. These recommendations include:

- Investing in intelligence gathering and analysis
- Strengthening border security
- Countering terrorist propaganda and recruitment
- Improving cooperation between law enforcement agencies
- Developing and implementing new technologies to counter terrorism

The threat of terrorism is a complex and evolving one. The global terrorism landscape is constantly changing, and it is essential for governments, law enforcement agencies, and other stakeholders to stay ahead of the curve. This report provides a comprehensive analysis of the global terrorism landscape in 2024, and it identifies key trends, emerging threats, and potential future developments. It also provides recommendations for how to counter and mitigate the threat of terrorism. By working together, we can create a safer world for everyone.
